About Cel Shaded Games

Cel Shaded Games is a company dedicated to creating high quality, collectible anime games. No matter where you are on your anime journey, we have a product that you'll love. We take a different approach to anime games- they don't need to be something you hide under the bed or toss out when the new seasonal anime comes out. We want our games to be as artistic and impactful as the shows that inspire them.

Product & Features

Our first game, *_ Me, Senpai!* is an illustrated card party game that any anime fan can appreciate. Each game can be customized to a player's taste in genres and character archetypes, and each play session is unique thanks to the game's focus on roleplay and strategic elements rather than pure luck of the draw.

Using their knowledge (or lack thereof) of anime tropes, 4-8 players compete to create wacky characters and scenarios.

_ Me, Senpai! was born out of the desire to have an anime game that was easy to pick up and play for all stripes of anime fans- from the hardcore OVA collector to the seasonal anime watcher. We wanted a game we could play with our friends or random strangers at cons without having to deal with clashing tastes in anime. We want _ Me, Senpai! to be more than just a game, but to be a piece of art anime fans can display in their collections.

_ Me, Senpai! takes a different approach to fill-in-the-blank card party games by incorporating roleplaying and strategy elements to the game. This increases replayability and makes it easier to win even if you draw a bad hand. Additionally, the game cards have unique illustrations that help players learn anime tropes, leveling the playing field for all types of anime fans.

Our game helps anime fans of all stripes come together.

The cards and prompts are hilarious. The mix between sub and dub senpai prompt cards keeps the game fresh.
